Electronic Devices Policy

Electronic devices such as cell phones should be used appropriately and responsibly in school. Teachers should enforce their own desired policy based on their individual classroom environment. Each teacher will make their individual policy readily available and transparent for students.

Technology is a privilege and students that repeatedly use technology inappropriately can be subject to a suspension of technology at the discretion of the administration. At the start of the year in the advisory curriculum, students will learn about responsible use of technology.

SCHOOL DISTRICT SOCIAL MEDIA WEBSITES

The purpose of the Social Media Policy for **Oyster River Cooperative School District Staff** is to inform staff who use social media in their capacity as employees of the District to communicate with colleagues, students, parents, and/or community for District- or school-related purposes of the District's expectation that they do so in a safe, responsible and professional manner.

Social media is a term used to describe a set of electronic tools through which users create online communities to share information, ideas, and other content. Social media sites that have not been authorized by the Superintendent or designee but that contain content related to the district or comments on district operations, such as a site created by a parent-teacher organization, booster club, or other school-connected organization or a student's or employee's personal site, are not considered official district social media platforms.

Official district social media platforms shall be used only for their stated purposes and in a manner consistent with this policy and administrative regulation. By creating these official sites and allowing for public comment, the Board does not intend to create a limited public forum or otherwise guarantee an individual's right to free speech.

All staff communicating through social media for District or school-related purposes represent the School District. All communication with colleagues, students, parents and/or community for District purposes should be professional and age-appropriate, modeling the standards and integrity of a District professional. The same professional expectations apply to using social media as they do in other areas of professional activity within the District. Staff members responsible for monitoring content may remove posts based on viewpoint-neutral considerations, such as lack of relation to the site's purpose or violation of the district's policy, regulation, or content guidelines

When staff set up and/or use social media for communications that have District- or school-related purposes, they have no expectation of privacy from the District with respect to such communications. District or District-designated administrators reserve the right to review social media used by staff for District- or school-related purposes or communication and to remove, disable, revise, and provide feedback regarding social media sites that do not adhere to the law or District regulations and/or do not reasonably align with the **Oyster River School District** Social Media Policy. Staff setting up social media sites to communicate with students, parents and/or community for District- or school-related purposes must inform the District they have set up the site(s) and provide appropriate means for the District or District-designated administrator to access, review and administer the site.

Staff shall adhere to applicable privacy and confidentiality laws (including but not limited to FERPA) and policies in all District- and school-related communications and interactions through social media. Staff shall carefully review the privacy settings on any social media and networking sites they use as District professionals and exercise care and good judgment when posting content and information. Staff should remain aware that information they place on social media and designate as "private" may be disclosed by a person with authorized access to "private" content. Information on social media sites may also be subject to disclosure for other reasons, including the Right to Know law.

District staff are responsible for the content of any communication they post or send when communicating as employees of the District through social media. Staff shall be responsible for the content and upkeep of any social media sites they create for District- and school-related purposes, including dismantling the site when it is no longer in use. The use of personal social media for District- or school-related communications is discouraged to avoid any misunderstanding between professional and personal communications.

USER RESPONSIBILITIES AND GUIDELINES ON THE USE OF SCHOOL FACILITIES

Regulations Governing the Use of Facilities:

Persons or organizations violating these regulations may forfeit their rights to further use of school facilities. Sponsoring organizations shall provide sufficient competent adult supervision that has the authority to sign the written agreement and is responsible to the organization seeking permission to use the school facilities. The responsibility for the enforcement and communication of these regulations shall rest with the person(s) or organizations(s) using the facilities. The staff member in charge should ascertain that users are aware of policy and regulations governing use or school facilities.

Notification is the responsibility of the group or individual renting the school facility. If this is not complied with, the school district reserves the right to cancel the contracted rental agreement. Payments for these services should be made directly to the police/fire department.

4. When schools have been closed because of inclement weather, the facilities will be closed for all use. There is no parking in any of the school parking lots during or after storms for safety, plowing and sand/salting purposes. 10. Any activity which requires special equipment, a rearrangement of school furnishings, or decorations attached to any building surface, must have the written approval from the school principal prior to scheduling the event. Please show respect for the facility with proper care, usage and respectful language.
11. Consumption of all beverages in the ORHS and the ORMS gymnasiums and auditorium is prohibited. The consumption of non-alcoholic beverages in other areas of the schools will require the written permission of the principal.

The use/possession/selling of drugs or other controlled substances on school district property is against federal and state laws. Any person who violates this section shall be guilty of a violation and notwithstanding RSA 651:2 shall be punished by a fine. The Oyster River School Board strongly supports all efforts by law enforcement officials to eliminate drugs in schools.
13. Individuals and/or groups renting school district property must clean the area rented and clear it of their belongings by the end of the scheduled reservation time at least 1 hour prior to the next scheduled event. Oyster River Cooperative School District reserves the right to remove or discard any items left behind at renter's expense.
14. There shall be no changes in the lighting arrangement unless prior permission has been granted by the technical director. Under no conditions shall there be any tampering with light controls.
15. Pianos shall not be moved without prior permission of the principal. The cost of tuning the piano for an event will be the responsibility of the renter. Pianos must be returned to the condition it was in prior to the event.

17. Rental contracts are made with the person(s) or organization listed on the application only. The subletting of school facilities is prohibited.
18. Users who have permission to enter the building on weekends or during school breaks are responsible for the activation/deactivation of school alarm systems and accept full responsibility as a result of their negligence.

At no time may fire lanes and emergency exits, or handicapped parking spaces and entrances, be blocked by vehicles. Vehicles are not permitted on athletic fields or grass areas at any time. Illegal parking may result in vehicles receiving tickets, warning tags or towing at the vehicles owner's expense. Parking in marked spaces only.

Exceptions to this will be considered depending on the nature of the event, and demand on the auditorium.
7. All equipment, props, etc., owned by the renting organization must be removed from the premises the evening of the last performance, unless other arrangements have been made with the facilities office. Storage space in the auditorium is extremely limited and only available while the auditorium is reserved by the renting organization (for a theatrical production the load in would be no earlier than one week before the final performance unless other arrangements have been made in advance through the Facilities office).

Oyster River Cooperative School District Naloxone Policy

Purpose:

The purpose of this policy is to establish guidelines and procedures governing the utilization of Naloxone administered by employees of the Oyster River School District.

Policy:

NH House Bill 271 and NH House Bill 270 with support of the NH School Nurses Associations allows school nurses to keep on-site in each school and utilize in an emergency, opioid antagonists such as Naloxone. A suspected opioid related drug overdose may be treated by any trained school staff by administering an opioid antagonist. If there is a suspected opioid overdose and there are no trained staff or access to an opioid antagonist, 911 should be called.

No school nurse or staff member shall be liable for civil damages which may result from acts of omissions relating to the use of the opioid antagonist, nor shall school personnel be subject to criminal prosecution from acts of omission or good faith administration of an opioid antagonist. No school nurse or employee shall be subject to penalty or disciplinary action for refusing to be trained in the administration of an opioid antagonist.

Training:

An opioid overdose is a life-threatening event which may lead to respiratory depression, hypoxia, loss of consciousness and cardiopulmonary arrest. This may be reversible with the use of the opioid antagonist, Naloxone, and rapid initiation of the emergency response system. The purpose of this policy is to allow trained school staff the opportunity to intervene immediately in what could be a life saving measure before EMS arrives. School nurses shall be trained in the use of Naloxone by trained facilitators from NH Department of Health and Human Services or the NH State Department of Safety.

Procurement and Storage of Naloxone:

NHSNA Position Statement

EMERGENCY CARE AND FIRST AID

All School personnel have responsibilities in connection with injuries and emergencies occurring in school and at school-sponsored events, which may be classified as follows: (1) administering first aid; (2) summoning medical assistance; (3) notifying administration; (4) notifying parents; and (5) filing accident/injury reports.

School personnel must use reasonable judgment in handling injuries and emergencies. Caution should be exercised not to minimize or maximize any injury or illness. All personnel will understand the proper steps to be taken in the event of an injury or emergency.

The Superintendent will ensure that at least one other person on staff, aside from the school nurse, has current first aid and cardiopulmonary certification (CPR). If the school nurse is not available, the person(s) who have current first aid and CPR certification is authorized to administer first aid and CPR as needed.

The school will obtain at the start of each school year emergency contact information of parents or legal guardian for each student and staff member.

The school physician, school nurse, or specially trained staff members shall assist in the treatment of injuries or emergency situations. Such individuals have the authority to administer oxygen in case of a medical emergency, if available and if appropriate. This authorization extends to administering oxygen to students without prior notification to parents/guardians.

Additionally, the school physician, school nurse, or specially trained staff members may also administer epinephrine or opioid antagonists to any student in case of a medical emergency, if appropriate. This authorization extends to administering epinephrine or opioid antagonists without prior notification to parents/guardians.

For significant injuries, the staff person witnessing the event must fill out an accident report, which must be submitted to administration so that he/she is informed and a basis is established for the proper processing of insurance claims and remediation if necessary.

The District makes it possible for parents to subscribe to student accident insurance at low rates. This program is offered each year during September. The District does not provide student accident insurance.
